10+
years at Bank of America

PROFILE

Marketing director, founder and business owner with 20+ years building brands, customers and sales for some of the biggest names around. **Over ten years at Bank of America**. **Director of Products & Marketing** and **Amazon marketing** at two leading **Amazon partner agencies**, growing US and international brands on **Amazon**. **CRM and email marketing** in the **marketing department at Potato Head**, one of Bali's biggest hospitality brands. Brand and digital work for **Nissan, Heathrow Airport and Bacardi** at **DMI (Golden Gekko)**, and **commercial launches** at **Cellcard**.

Today I'm the **founder, owner and Marketing Director of Mavis**, and I build **brands, websites, booking systems and loyalty programmes** for Bali venues. I **lead teams**, **run agencies**, **spend ad budgets like they're my own**, and measure everything in **revenue**.

HOW I LEAD MARKETING

I lead teams that deliver
I hire, brief and lead marketing, creative and sales teams. Clear goals, clear owners, weekly reviews, and I own the result, not just the plan.

I get the best from agencies
I've sat on the agency side, so I know how agencies work, what they need and where they cut corners. Tight briefs, agreed KPIs, and they're held to the numbers.

I make paid ads pay
I plan budgets by channel, set cost-per-booking and return-on-ad-spend targets, test small, scale what wins and cut what doesn't, every week. No money spent without a reason.

I build brands that sell
Positioning, USPs and a brand voice that's the same on the menu, the website, Instagram and the floor. A brand people recognise and choose.

I tie marketing to revenue
Every campaign is measured in bookings, covers, spend and repeat visits. I've closed deals myself, so I market like a salesperson.

I lead with data
Marketing intelligence from sales, POS and guest data tells me what to sell, to whom, when and at what price, before a single ad goes out.

EXPERTISE

Brand & positioning
Identity, USPs and a clear reason to choose you, carried across every channel.

Amazon & e-commerce
PPC within budget, page-one listings, launches and sales reporting.

Digital marketing
Websites, social, content, SEO, paid ads and email.

Marketing intelligence
Reading sales, POS and guest data to decide what to sell, to whom and when.

CRM & loyalty
Guest databases, segmentation, memberships and QR keyring programmes.

Team leadership
Leading marketing, creative and sales teams to deliver on time and on brand.

Agency management
Briefing, managing and holding agencies to clear KPIs.

Paid media & budgets
Channel budgets, ROAS and cost-per-booking targets, test and scale.

SKILLS

Leadership

AMAZON & E-COMMERCE, IN DEPTH

I spent years growing brands on **Amazon**, one of the biggest companies in the world, at two leading **Amazon partner agencies**. I know how the marketplace works from the inside: how products rank, what ads really cost, and what makes a shopper buy.

Strategy & planning

Which products to push, which markets to enter, how to price and how to launch. I plan Amazon brands like a business, not a listing.

PPC that pays

Sponsored Products, Brands and Display, structured by product and keyword. Bids, negatives and placements tuned weekly to return-on-spend targets.

Campaign costs & analysis

I know what a campaign should cost before it runs, track ACoS and cost of sale as it runs, and cut or scale on the numbers afterwards.

Trends & timing

Keyword trends, seasonality and competitor moves, with Prime Day, Black Friday and Q4 planned months ahead.

Listings that convert

Titles, keywords, bullets, imagery, A+ content and brand stores written to rank on page one and turn searches into sales.

Client leadership

Daily calls with US brand owners. I set expectations, report clearly and keep them confident.

CURRENT WORK

Mavis

Live

Founder, Owner & Marketing Director · Hospitality operations, CRM & membership platform

- Lead all **marketing** as founder and **Marketing Director**: **brand**, **positioning**, website, **campaigns**, **sales** and **guest marketing**.
- Built the Mavis **brand** from nothing: name, logo, colours, **tone of voice** and the line 'One team. One platform.'
- Found the market gap by talking to venue owners and staff, then defined the **USPs** that make Mavis worth switching to.
- Tested **messages** with real buyers and repositioned the **brand** around the one that landed, 'Everyone matters'.
- Built the full **sales funnel**: **marketing website**, a private access-coded product tour, and a request-access button straight to WhatsApp.
- Wrote all the **sales** and **marketing** copy: website, tour, product overview and pitch material.
- Created a **founding-venue offer** to win the first customers and turn them into references.
- Set the pricing **strategy**: one simple flat monthly fee, because per-person pricing puts venues off.
- Run **sales** myself, from first contact to demo to close. My first two **sales** calls both ended in a yes, and six venues are lined up to go live.
- Taking the platform into new markets: spas, padel clubs, hotels and drinks distributors.

Business and Tourism
West Cheshire College, UK

LANGUAGES

English (native)
Bahasa Indonesia (basic)

VISA

KITAP holder, based in Bali

- Built the **guest marketing** side: feedback surveys, a customer database and QR **keyring memberships** that let venues recognise, reward and remarket to **regulars**.
- Designed **sales** reporting from a venue's POS data, showing **revenue** patterns, busy and quiet days, and what's really selling.
- Built recipe-to-menu food costing, so every dish shows its cost percentage and menus can be priced for **margin**.

Sundari Wellness

Live demo

Brand, Web & Loyalty Lead · Website, booking system & loyalty for a Seminyak day spa

- Rebuilt the spa's **brand** online with a clean, warm, one-page website built to sell, not just look nice.
- Designed every section around bookings: treatment pop-ups, WhatsApp and Book Now on every screen.
- Brought the gift voucher shop in-house, so voucher **revenue** and customer details stay on the spa's own site.
- Created a branded QR **keyring loyalty** programme: **regulars** get a discount, reception captures their details into a **CRM**, and every scan opens booking.
- Turned each **keyring** scan into cross-selling, linking to the owner's eco retreat and wellness villa.
- Designing a booking system with the owner where every booking request lands straight in reception's room allocation.
- Running **SEO** with the client so the site ranks for the searches that bring in bookings.

Craft Gin Distributor

Proposal

Trade Marketing & Commercial Lead · Field sales, trade marketing & CRM for a Bali drinks brand

- Designed an 'Insider' trade **marketing** programme for bar and restaurant owners: share-and-win **Instagram content**, bartender academy, monthly deals and a direct line to their rep.
- Created a branded **keyring** gift for venue owners that opens the Insider programme with one scan.
- Scoping a field **sales** app for reps who visit around 20 bars and restaurants a day, with visit tracking and targets.
- Shaped a **CRM** and ordering system around outlets, reps, targets and **brand** performance.

Dashbox

Paused

Founder · Trading intelligence & market data platform

- Founded and built a trading intelligence platform that turns live market data into clear rankings, trends and alerts.
- Ranks 8 major currencies across 28 pairs on a 0 to 100 strength score, so the strongest opportunities stand out at a glance.
- Designed filters that combine several timeframes and indicators to separate real signals from noise.
- Built dashboards and automated Telegram alerts, so changes in the market are acted on fast.

- Built trade-management tools with automated risk rules, applying the same discipline I bring to **marketing budgets**.

Mavis Padel

In build

Founder & Marketing Lead · Booking, membership & upsell platform for padel clubs

- Building a club platform around upsell: visual court-map booking, bar and table pre-orders, and bundles like towel, coconut and racket.
- Designed QR **keyring memberships** so clubs can recognise **regulars** and market to them directly.
- Positioned it for families and kids as well as players, to widen each club's market.

EXPERIENCE

Amazon & e-commerce marketing

Director of Products & Marketing

Nov 2017 – Apr 2019

Schone Digital, Amazon partner agency, Singapore

- Directed products and **marketing** at one of the region's leading **Amazon** partner **agencies**, growing client **brands** on **Amazon**, one of the biggest companies in the world, and across their own online stores.
- Set the full **Amazon marketing strategy** for each client **brand**: which products to push, which markets to enter, how to price, and how to win the search results that matter.
- **Led** the **marketing** and **creative** team: designers, copywriters, developers and external partners, all working to one plan and one set of numbers.
- Planned and owned **Amazon** and online **advertising budgets**, deciding how much each **campaign** should cost, where every dollar goes, and what return it has to bring back.
- Built **Amazon PPC** structures across **Sponsored Products**, **Sponsored Brands** and **Sponsored Display**, split by **brand**, product and keyword so every cent could be tracked.
- **Led** keyword and market research to find the searches real buyers use, the gaps competitors had missed, and the trends worth getting ahead of.
- Planned the **marketing** calendar around **Amazon**'s big moments, like **Prime Day**, Black Friday and Q4, so client **brands** were ready with stock, deals and ad **budget**.
- Ran product **launches** and **promotions** end to end: **listings**, **A+ content**, **brand stores**, **launch** deals, **ad spend** and email **campaigns**.
- Built **brand** guidelines and **content** standards so every client product looked, sounded and sold the same everywhere.
- Turned **sales**, traffic and **advertising** data into clear decisions: which products to scale, which to fix, and which to cut.
- Managed the customer journey from first search to checkout, and used **conversion** data to make each step sell harder.
- Built tracking and reporting so clients and leadership could see **sales**, **ad spend**, cost of sale and profit at a glance.
- Was the senior voice with clients: presenting **strategy**, results and next steps, and agreeing **budgets** and targets with **brand** owners.

- Briefed, reviewed and signed off all **creative** before it went live, so quality never slipped.

Senior Project Manager · Amazon Marketing

Aug 2022 – Aug 2023

Split Dragon, Amazon partner agency, Bali

- Ran **Amazon marketing** for US consumer **brands** at a leading **Amazon** partner **agency**, owning the client relationship and the results, with client calls every day.
- Planned each **brand**'s **Amazon strategy**: product focus, pricing, **launch** plans, ad **budgets** and monthly **sales** targets.
- Managed **Amazon PPC campaigns** day to day: keyword targeting, **bids**, negative **keywords**, **budgets** and placements, all tuned to agreed return-on-spend targets.
- Worked out what each **campaign** would cost to run, and kept **advertising** cost of sale (**ACoS**) under control while growing total **sales**.
- Kept client products on **page one** of **Amazon** for their main searches through sharper **listings**, smarter bidding and steady **sales** velocity.
- Optimised **Amazon listings** end to end: titles, **keywords**, bullet points, imagery, **A+ content** and **brand stores**, written to rank and to convert.
- Tracked market trends, seasonal peaks and competitor moves, and adjusted **strategy** and spend before the market moved.
- Researched competitors and customer reviews to find the angle that made each product stand out, then built it into the listing and the ads.
- Planned **Amazon** product **launches** and **promotions**, from listing set-up and **launch** deals to **launch** ad **campaigns**.
- Ran weekly **campaign** analysis: cut what wasn't working, moved **budget** to what was, and tested new **keywords** and ad types.
- Produced regular performance reports for clients on **sales**, **ad spend**, **ACoS**, **conversion** and growth, and explained exactly what drove the numbers.
- Spoke with US **brand** owners every day, turning their goals into plans and keeping them confident through every change.
- **Led** and briefed designers, copywriters and specialists, so every listing and **campaign** went live on time and on **brand**.

Hospitality marketing & CRM

CRM & ERP Project Manager · Marketing

Apr 2019 – Dec 2020

Potato Head Family, Bali

- Worked in the **marketing department**, reporting to the **Marketing Director**, at Potato Head, one of Bali's biggest and best-known hospitality **brands**.
- **Led CRM** for the group: **guest data**, **segmentation** and **email marketing** across multiple venues.
- Planned and sent email **campaigns** and **email blasts** for events, **launches** and **offers**.
- Segmented guests by visit frequency, spend and interests, so each offer reached the right people.
- Defined guest profiles, data capture and reports, so **marketing** could see who guests were, how often they came and what they spent.
- Delivered the **Salesforce CRM**, from requirements and configuration to go-live and staff training.

- Project-managed the group's ERP build, bringing **sales**, operations and finance data together.
- Cleaned and migrated **customer data** from old tools and spreadsheets into one **CRM marketing** could use.
- Worked with venue, F&B and events **teams** to capture **guest data** at every touchpoint.
- Reported results and recommendations to the **Marketing Director** and leadership.

Mobile, digital & commercial marketing

Digital Project Manager · Mobile App & Web Design

Sep 2013 – Jan 2018

DMI (Golden Gekko), Phnom Penh

- Worked for DMI, at the time one of the world's largest mobile app, web design and digital **marketing** companies.
- Delivered mobile apps and websites for global **brands** including Nissan, Heathrow Airport and Bacardi.
- Worked with each **brand** on their customers, goals and look, so every app felt like the **brand**.
- Designed sign-up, **loyalty** and engagement journeys that kept customers coming back.
- **Led** designers and developers across locations, and presented designs and builds back to the **brand teams**.
- Took products from first workshop to **launch**, then fed customer feedback into the next release.

Commercial Project Manager · Marketing & Sales

Sep 2012 – Sep 2013

Cellcard (CamGSM), Phnom Penh

- Ran commercial projects for Cellcard, Cambodia's leading mobile operator, reporting directly to the CEO.
- Brought new customer **offers**, services and **campaigns** to market with the **marketing** and **sales teams**.
- Turned commercial ideas into clear plans and made sure **sales**, **marketing** and customer care were ready on **launch** day.
- Prioritised the **launch** pipeline with the CEO by commercial value, cost and timing.
- Managed **agencies** and partners against scope, **budget** and **launch** dates.
- Reported **launch** progress and results to the CEO and leadership.

Banking

Customer Service → Project Manager → Technical Project Manager

Sep 2001 – Nov 2011

Bank of America, Chester, UK

- Over ten years at Bank of America, starting on the front line in customer service and learning what keeps customers loyal.
- Progressed to Project Manager, then Technical Project Manager, delivering change for customer-facing systems.
- Worked with business, technology and operations **teams** in a heavily regulated, customer-first environment.

- Built the discipline, reporting and stakeholder skills I still use to run **marketing teams** and **launches** today.

Hospitality

Technical Director

Feb 2023 – Present

Luna Beach Club, Bali

- Joined pre-opening and ran the **marketing team** through **launch**: **branding**, **USPs**, website, **social media** and opening **campaigns**.
- Work across management, operations, F&B, **marketing** and **sales**.
