PROFILE

I build hospitality brands and the systems behind them. I start with **who the guest is and why they should choose you**, then build everything around it: brand, website, social, campaigns, and the guest database and loyalty that keep people coming back.

I ran **Amazon and e-commerce marketing** for US and international consumer brands at two Amazon partner agencies: PPC, page-one listings, launches and performance reporting. In Bali hospitality I've worked in the marketing team at **Potato Head** and led a beach club's launch marketing. Today I'm the founder of **Mavis**, a hospitality platform where I own the brand, marketing and sales, and I build websites, booking systems and loyalty programmes for Bali venues and brands.

CURRENT WORK

Mavis

Live

Founder · Brand, Marketing & Sales · Operations, CRM & membership platform for hospitality

- Founded Mavis to bring a venue's team, guests, suppliers and daily operations into one place, replacing WhatsApp groups, spreadsheets and scattered drives.
- Created the brand from scratch: name, logo, colours, tone of voice and the line 'One team. One platform.'
- Defined the USPs and positioning, tested the message with venue owners and staff, and repositioned the brand around what actually landed.
- Designed and launched the marketing website and a private, access-coded product tour that turns interest into qualified conversations.
- Run sales end to end, from first contact to demo to close. My first two sales calls both ended in a yes, and six venues are lined up to go live.
- Built the guest side: feedback surveys, a customer database and a QR keyring membership that lets venues recognise, reward and remarket to regulars.
- Designed sales reporting that imports a venue's POS data, so owners can see revenue patterns, busy and quiet days, and what's really selling.
- Built recipe-to-menu food costing, so every dish shows its cost percentage and menus can be priced for margin.

EXPERTISE

Brand & positioning
Identity, USPs and a clear reason to choose you, carried across every channel.

Amazon & e-commerce
PPC within budget, page-one listings, launches and sales reporting.

Digital marketing
Websites, social, content, SEO, paid ads and email.

Marketing intelligence
Reading sales, POS and guest data to decide what to sell, to whom and when.

CRM & loyalty
Guest databases, segmentation, memberships and QR keyring programmes.

Sundari Wellness

Live demo

Brand, Web & Booking Lead · Website, booking system & loyalty for a Seminyak day spa

- Redesigned the spa's website as a clean, one-page site built to sell: treatment pop-ups, WhatsApp and Book Now on every screen.
- Brought the gift voucher shop in-house, so voucher revenue and customer details stay on the spa's own site.
- Designing a booking system with the owner where every booking request lands straight in reception's room allocation.
- Pitched a branded QR keyring loyalty programme: regulars get a discount, reception captures their details into a CRM, and every scan opens booking plus the owner's other properties.
- Running SEO with the client so the site ranks for the searches that bring in bookings.

Craft Gin Distributor

Proposal stage

Product & Commercial Lead · Field sales, trade marketing & CRM for a Bali drinks brand

- Scoping a field sales app for a Bali spirits distributor whose reps visit around 20 bars and restaurants a day.
- Designed an 'Insider' trade programme for venue owners: share-and-win Instagram content, bartender academy, monthly deals and a direct line to their rep.
- Mapped how they sell to venues, then shaped a CRM and ordering system around outlets, reps, targets and brand performance.

Mavis Padel

In build

Founder · Booking, membership & upsell platform for padel clubs

- Building a club platform with a visual court-map booking, bar and table pre-orders, and bundles like towel, coconut and racket at checkout.
- Designed around upsell and membership, because every padel venue lives on its food, drinks and regulars.

EXPERIENCE

E-commerce & Amazon marketing

Senior Project Manager · E-commerce & Amazon Marketing

Aug 2022 – Aug 2023

Split Dragon (Amazon partner agency), Bali

- Ran marketing for US consumer brands selling on Amazon, speaking with clients every day.
- Managed Amazon PPC campaigns within agreed budgets and return-on-spend targets.
- Kept client products on page one for their main searches through sharper listings.
- Optimised listings end to end: titles, keywords, bullet points, imagery, A+ content and brand stores.
- Researched competitors and customer reviews to find the angle that made each product stand out.

EDUCATION

Business and Tourism

West Cheshire College, UK

LANGUAGES

English (native)
Bahasa Indonesia (basic)

VISA

KITAP holder, based in Bali

- Planned product launches and promotions, from listing set-up to launch campaigns.
- Used sales, traffic and ad data to cut what wasn't working and move budget to what was.
- Produced regular performance reports on sales, ad spend, conversion and growth.
- Briefed and coordinated designers, copywriters and specialists to deliver on time.

Products & Marketing Manager

Nov 2017 – Apr 2019

Schone Digital (Amazon partner agency), Singapore

- Led e-commerce and Amazon marketing for client brands: listings, content, brand stores, promotions and email.
- Managed online advertising measured against sales and return on spend.
- Ran e-commerce platforms and the customer journey, from first visit through to checkout.
- Set up tracking and reporting so clients could see what was working and where to spend next.
- Used customer data to find where buyers dropped off and improved conversion.
- Managed designers, copywriters and partners, so I know how to brief and get the best from an agency.

Hospitality marketing & CRM

Technical Director

Feb 2023 – Present

Luna Beach Club, Bali

- Joined pre-opening and ran the marketing team through launch: branding, USPs, website, social media and opening campaigns.
- Work across management, operations, F&B, marketing and sales, building the systems the venue runs on.

CRM & ERP Project Manager · Marketing

Apr 2019 – Dec 2020

Potato Head Family, Bali

- Worked within the marketing team on guest data, CRM and email campaigns for one of Bali's best-known hospitality brands.
- Turned guest data into segmented email marketing, so the right offer reached the right guests.
- Delivered CRM and ERP projects including Salesforce across multiple venues, from requirements to rollout and staff training.
- Defined guest profiles and reports so marketing could see who their guests were, how often they came and what they spent.
- Cleaned and moved customer data from old tools and spreadsheets into one system.

Earlier career

Digital Project Manager · Mobile App & Web Design

Sep 2013 – Jan 2018

DMI (Digital Management, LLC), Phnom Penh

- Delivered mobile apps and websites for global brands including Nissan, Heathrow Airport and Bacardi.
- Ran discovery with clients on their customers, goals and brand, then took the product from wireframes to launch.
- Designed sign-up, loyalty and engagement journeys with clients, and presented designs and builds back to them.

Commercial Project Manager

Sep 2012 – Sep 2013

Cellcard (CamGSM), Phnom Penh

- Ran the internal PMO reporting to the CEO, connecting Sales, Marketing and Technology.
- Coordinated launches of new customer offers and campaigns with the sales and marketing teams.

Customer Service → Project Manager

Sep 2001 – Nov 2011

Bank of America, Chester, UK

- Started on the front line in customer service, learning what keeps customers loyal, and progressed into project management.
